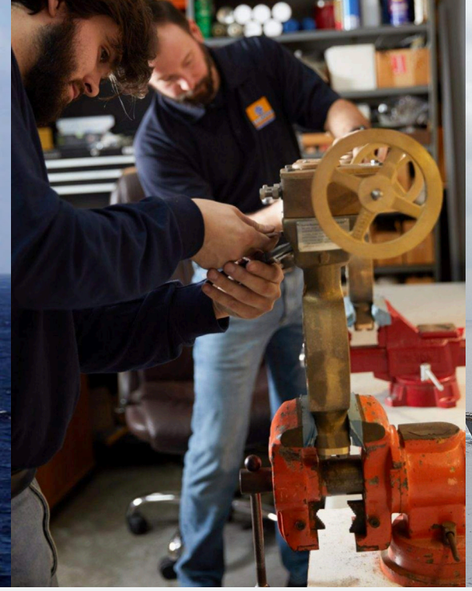
MOODY MARINE SERVICE

ISO 9001:2015 CERTIFIED

SERVICING ALL YOUR MARINE VALVES AND ACTUATORS

Your Value-Added Partner for Fluid Control Solutions.

Delivering Excellent Service to the Navy & Commercial Marine Marketplace for more than Thirty Years!



LOOKING FOR AN OUTSTANDING REPAIR SHOP?

Select the Moody Marine Service Advantage

For nearly 25 years, Moody Marine Service (MMS) has provided the Navy with reliable, cost-effective repair and service work for valves, actuators and control devices. Our services are available on board the ship or in our service centers located in Chesapeake, VA and Mayport, FL.

Our highly skilled service team has earned an excellent reputation of getting the job done right. With significant military experience, we understand compliance. We create controlled work packages for 100% of every job and we are certified by the US Navy for Level 1 repairs.

Our service team technicians, many with prior military backgrounds, are factory trained and authorized. Our facilities maintain a large inventory of OEM parts required to expedite the repair process. We are a Veteran Owned Small Business and we understand the importance of every order. Our conscientious technicians take care of our clients like family. We are highly competent and skilled in servicing flow control items and repairs.

Moody Marine Service facilities are IS0-9001:2015. CMMC POAM full compliance is targeted for completion in December, 2023.

J A MOODY
MARINE SALES & SERVICE

JAMOODY.COM

JA Moody is a veteran owned family business focused on selling flow control products to the US Navy and commercial marine marketplace. Under the same ownership since 1989, JA Moody offers a full portfolio of high-quality American made products to best serve the Marine industry.

Over the past several decades, JA Moody has successfully qualified many products for use on all Navy Class Ships. Most recently, JA Moody has brought to market the next generation Vanessa Hardened Seat Valve for use in severe service applications.

Over two decades ago, JA Moody expanded our capabilities to provide additional services to the Navy by offering repair and service work on actuators and valves. Our sister company, Moody Marine Service (MMS), provides the Navy with reliable, efficient, and dependable repair and service work on board and in our service centers. Located in Virginia and Florida, MMS responds to all requests in a timely manner with the capability to send an authorized service technician to diagnosis and repair your problem anywhere across the globe.
